

General Advice	Consult a physician. Show this Safety Data Sheet to the doctor in attendance
If inhaled	If breathed in, move person into fresh air. If not breathing, give artificial respiration
Skin contact	Wash off with soap and plenty of water
Eye contact	Flush eyes with water as a precaution
If swallowed	Never give anything by mouth to an unconscious person. Rinse mouth with water

Person protective equipment for first-aid responders – N/A

## **SECTION 5: Firefighting measures**

### **5.1 Suitable extinguishing media**

Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide

### **5.2 Specific hazards arising from the chemical**

Possibility dust exposure

### **5.3 Special protective actions for fire-fighters**

Wear self-contained breathing apparatus for firefighting if necessary

### **Further information**

N/A

## **SECTION 6: Accidental release measures**

### **6.1 Personal precautions, protective equipment and emergency procedures**

None under normal conditions, avoid prolonged inhalation of dust

### **6.2 Environmental precautions**

Small or household quantities may be disposed of in sewer or other liquid waste systems. For larger quantities check with your local water treatment plant.

### **6.3 Methods and materials for containment and cleaning up**

Sweep up or vacuum up spillage and collect in suitable container for disposal. Avoid dust formation. Keep in suitable, closed containers for disposal

### **Reference to other sections**

For disposal see section 13.

## **SECTION 7: Handling and storage**

### **7.1 Precautions for safe handling**

Further processing of sold materials may result in the formation of combustible dusts. The potential for combustible dust formation should be taken into consideration before additional processing occurs.

Provide appropriate exhaust ventilation at places where dust is formed. For precautions see section 2.2

### **7.2 Conditions for safe storage, including any incompatibilities**

Keep container tightly closed in a dry and well-ventilated place

## **SECTION 8: Exposure controls/personal protection**

## **8.2 Appropriate engineering controls**

Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of the work day

## **8.3 Individual protection measures, such as personal protective equipment (PPE)**

### **Eye/face protection**

Tightly fitting safety goggles. Face Shield (8-inch minimum). Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU)

### **Skin protection**

Distribution, Workplace and Household Settings: No special protective equipment required.  
Product Manufacturing Plant (needed at Product-Producing Plant ONLY): Protective gloves.

### **Body protection**

Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific work place.

### **Respiratory protection**

Respiratory protection is not required. Where protection from nuisance levels of dust are desired, use type N95(US) or type P1 (EN143) dust masks. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU)

**Thermal hazards** – N/A

**Control banding approach** – N/A

**Environment exposure controls** – N/A

## **SECTION 9: Physical and chemical properties**

### **9.1 Information on basic physical and chemic properties**

Physical state: Solid

Appearance: Meal or Granular

Color: Brown

Odor: Odorless

## **SECTION 10: Stability and reactivity**

### **10.1 Reactivity**

No data available

### **10.2 Chemical stability**

Stable under recommended storage conditions

### **10.3 Possibility of hazardous reactions**

None under normal conditions

### **10.4 Conditions to avoid**

Protect from moisture

### **10.5 Incompatible materials**

Do not store near acids, strong oxidizing agents, Carbon Dioxide (CO<sub>2</sub>)

### **10.6 Hazardous decomposition products**

Other decomposition products – No data available. In the event of fire: see section 5

## **SECTION 11: Toxicological information**

### **11.1 Information on effects**

Skin corrosion/irritation: causes skin irritation

Serious eye damage/irritation: causes eye irritation

Specific target organ Toxicity: May cause respiratory irritation

## **SECTION 12: Ecological information**

### **12.1 Toxicity**

Eco toxicity – No data available

Environmental fate – No data available

Toxicity - Non-Toxic

Degradation Products – No data available

## **SECTION 13: Disposal considerations**

### **13.1 Waste treatment methods**

Waste disposal recommendations: Place in an appropriate container and dispose of the contaminated material at a licensed site (for larger quantities). Smaller household quantities see section 6.2

**Dispose of waste material in accordance with local, regional and international regulations**

## **SECTION 14: Transportation information in accordance with DOT**

### **14.1 UN Number**

No dangerous good in sense of transport regulations

## **SECTION 15: Regulatory information – N/A**

## **SECTION 16: Other information**

### **16.1 Further information/disclaimer**

**DISCLAIMER:** The information above is believed to be accurate and represents the best information currently available to us. However, we make no warranty of merchantability or any other warranty, express or implied, with respect to such information, and we assume no liability resulting from its use. Users should make their own investigation to determine the suitability of information for the particular purposes. In no event shall Nutrition By Design, Inc. be liable for any claims, losses, or damages of any third party or for lost profits, or any special, indirect, incidental, consequential or exemplary damages, whatsoever arising, even if Nutrition By Design, Inc. has been advised of the possibility of such damages.
